PROFILE

I am a software developer with an educational background in Information Technology, focusing on creating functional and intuitive digital solutions. I have primary expertise in Full-Stack Web development (Laravel, PHP, React) as well as Mobile application creation (Android Native, Flutter). In my work approach, I design systems comprehensively, from modern UI/UX aesthetics, organizing efficient database architecture, to implementing Software Quality Assurance (SQA) standards to maintain product reliability. With a strong analytical mindset and deep interest in automation and AI technology integration, I am always ready to build efficient, scalable, and impactful technology products for users.

KEY SKILLS & COMPETENCIES

Skillset -Partnership Management, Editorial Content Planning, Full Stack Web & Mobile Dev

Analytical Thinking, Internet Communication, Strategic Sourcing, Analytical problem-Solving, AI Prompting, Workflow Automation, Software Quality Assurance, UI/UX Translation, Editing, Graphic Designer, Public Speaking.

Toolset -Laravel, PHP, React, Java, Dart, Flutter, MySQL, RESTful API, Git/Github, VS Code, Android Studio, Vercel, n8n, FFmpeg, CapCut, Canva.

LANGUAGES

Indonesian -Native Proficiency (oral and written)

English -Professional proficiency (oral and written)

PROFESIONAL EXPERIENCES

Administrative Intern

Department of Marine Affairs and Fisheries, Madiun City | 2022

- Supported daily administrative workflows and departmental activities to ensure efficient public service operations.
- Managed document archiving systems, accurate data entry processes, and structured official correspondence.
- Facilitated seamless daily office operations by actively collaborating and coordinating with the administrative team.

Full-Stack Web Developer

PosCare - Toddler Health Management System (Project-Based Learning) | Feb 2026

- Architected and developed a web-based information system to digitize the registration and data management workflow for community healthcare centers (Posyandu).
- Engineered core functional features, including growth tracking, automated examination scheduling, and health reporting, utilizing HTML, CSS, PHP, and a relational MySQL database.
- Collaborated cross-functionally to optimize system accuracy, operational efficiency, and UI/UX design, ensuring seamless usability for administrative staff.
- Achieved 1st Place at the TIF Exhibition (Java Tech Exhibition Category) hosted by PSDKU Kab. Nganjuk in February 2026 for outstanding technical execution and project delivery.

Full-Stack Web Developer

Mas Nur - Mosque & Community Management System (Collaborative Project)

- Engineered a comprehensive donation (Infaq) management module, building a fully functional Admin CRUD interface for secure digital payment (QRIS) and bank account administration using Laravel and MySQL.
- Implemented seamless file storage solutions for dynamic image uploads and resolved critical UI component rendering bugs on the public-facing frontend.
- Collaborated seamlessly within a team environment using Git and GitHub, actively managing version control, resolving complex merge conflicts, and synchronizing remote repository updates.
- Diagnosed and resolved complex backend discrepancies, including database schema modifications and custom session-based authorization protocols, ensuring system security and stability.

EDUCATION

Jember State Polytechnic | Diploma 4 Informatics Engineering (2024 - Present)

Relevant Courses: Database Concepts, Software Development, Systems Web-Based Information Systems and Frameworks, Software Quality Management, Software Maintenance, Software Testing, Intelligent Systems, Embedded Systems, Computer Network Concepts, Image and Vision Processing.

State Vocational High School 5 Madiun | Accounting (2021-2024)

Relevant Courses: Basic Accounting, Computer Accounting, Corporate Accounting Practicum (Service, Trade, and Manufacturing), Tax Administration, Spreadsheet Applications, Government Agency Accounting Practicum, and Business Economics

CERTIFICATION & AWARDS

Juara Pertama TIF Exhibition - Java Tech Exhibition(Feb 2026)

PSDKU Kab. Nganjuk, Politeknik Negeri Jember - Proyek PosCare (Sistem Informasi Posyandu Balita)

Participant of UI/UX Bootcamp (June 2025)

Politeknik Negeri Jember (PSDKU Kab. Nganjuk) - Theme: "Interactive Thingking: UI/UX in Action"

English Proficiency Test (EPT) - CEFR Level B1 (June 2025)

Politeknik Negeri Jember (UPA Bahasa) - Score: 80/140 (Pre-intermediate Level)

Study Club UI/UX (31 May 2025)

UI/UX Study Club activities organized by the Informatics Department, PSDKU Campus 3, Jember State Polytechnic, Nganjuk.

Internship Certificate from the Marine and Fisheries Office of Madiun City (22 December 2022)

Internship Certificate from the Marine and Fisheries Office of Madiun City as a Document Administration Officer

Sertifikat teknisi akuntan junior (Maret 2024)

UI/UX Study Club activities organized by the Informatics Department, PSDKU Campus 3, Jember State Polytechnic, Nganjuk.
